

Produit Nickel-plated 'Eye of Time' ball watch
Référence 12563A

Nickel-plated

'Eye of Time' ball clock The hero of our story is an anonymous clockmaker from Regency-era London. He was trying to design a travelling clock that was both small and easy to read... It was the age of candlelight... Little did he know that his spherical desk clock would become a coveted object. In times of need, the glass could be used to read a map or light the fire on a safari. Origin: Asian

Period: New

Materials: Brass

Dimensions: Height 8 cm

Caractéristiques

Dimensions	Ht 8 cm
Matériaux	Laiton
Origine	Asiatique
Époque	Neuf
