

Produit "Indianapolis" miniature car in white aluminium
 Référence 20895

White

aluminium 'Indianapolis' model car Our aluminium Indy racer is the perfect replica of a 1930s toy. The original was made by the famous Dooling brothers, who produced around 1,000 of them at the time. They were aimed at fans of the famous Dooling 'spindizzies' – motorised miniature car races that reached mind-boggling speeds. Their designs closely resembled the famous Mercedes Silver Arrows of the 1930s. The originals are now rare and highly sought after by collectors. Cast with the same attention to detail as the original, our 31cm Indy racer is made from aviation-grade aluminium. Hand-polished and re-polished to a perfect shine, it features a detailed dashboard, a faux-leather seat, a steering wheel and brakes. To preserve the spirit of the original, the front wheels are not connected to the steering wheel. The wheels and tyres are reproduced with the same attention to detail as the original. Enjoy a truly unique piece of Grand Prix history. This elegant, gleaming display model captures both the romance and the spectacular beauty of the most famous Grand Prix cars of yesteryear! Origin: Asian
