MARTAHO XXL 3-panel fire screen in painted

steel Rectangular in shape with three practical folding panels, we offer this SECURITE MARTAHO XL fire screen, specially designed for stoves. This MARTAHO XXL SAFETY fire screen will help protect your floor, décor and furniture from flying embers and sparks of all kinds. Every year, there are numerous accidents involving flying embers or a hot stove glass panel. Installing a screen in front of your stove is essential to secure the surrounding area, ensuring that no one is tempted to touch the hot glass and thus avoiding the risk of serious burns. The SECURITE MARTAHO XL fireguard for wood-burning stoves is therefore a reliable, indispensable and safe piece of equipment, designed to protect not only your children but also your pets from the risks posed by heat and flames.
