

Produit Officer's spyglass in silver-plated brass and wood
Référence 27038

Silver-plated brass and untreated

wood officer's spyglass: a classic and fascinating tool used by navigators and explorers. The essential instruments... the compass, the sextant and the spyglass. The spyglass consists of wooden cylinders that hold a lens and a system of lenses. It is reinforced with brass rings and fitted with a brass lens cap. To use it, extend the tubes (also known as 'drawers'). The smallest tube is the one containing the eyepiece. Carefully adjust its length to focus the image. Origin: Asian

Period: New

Materials: Brass

Dimensions: Height 39 x diameter 4.5 cm
