

Produit Glass hourglass - White
Référence 28954

An hourglass is an instrument used to measure a period of time corresponding to the duration it takes for a calibrated quantity of 'sand' to flow through a transparent container. However, these hourglasses use small glass beads coloured with metal via electrolysis, giving the hourglass unrivalled accuracy... If you put your ear to it, you'll hear the delightful music of time passing! Listen...Origin: Asia

Period: New

Materials: Glass

Dimensions: Height 30 x diameter 10 cm

Caractéristiques

Dimensions	Ht 30 x diamètre 10 cm
Matériaux	Verre
Origine	Asiatique
Époque	Neuf

Prix 48.00 TTC
