

Produit Round stone plinth – small
Référence 33830

Crafted from Sable stone in a 19th-century style, these elegant stands are ideal for displaying your collections of spheres. Handcrafted and hand-turned, their natural patina – aged and weathered by time – lends them their authentic character. Some stones take several months to acquire the desired patina. It is worth noting that the magic of this stone lies in the transformation that takes place when the master craftsman sets about sculpting it: he must wet it to make it crumbly and pliable under his chisels. Once it dries, it becomes ‘hard as stone’ once more!

Origin: Asia
Period: New
Materials: Stone

Dimensions: Height 6.5 x diameter 8 cm

Caractéristiques

Dimensions	Ht 6.5 x diamètre 8 cm
Matériaux	Pierre
Origine	Asiatique
Époque	Neuf

Prix 68.00 TTC
