Sculpture "The Race of Particles"

Hand-carved from a single block of marble, "The Race of Particles" evokes the quark theory, formulated by the physicist Murray Gell-Mann in 1969: quarks are elementary particles that are attracted to one another by a fundamental force and which, whilst they can never be isolated, constitute observable matter. A fascinating piece!

Natural pieces: the colour of the marble may vary from one piece to another. Origin: Asian

Period: New

Materials: Marble

Dimensions: H 17 x 17 x 13 cm

Caractéristiques

Dimensions	Ht 17 x 17 x 13 cm
Matériaux	Marbre
Origine	Asiatique
Époque	Neuf

Prix 148.00 TTC
