

Produit Large round plinth made of sandstone
Référence 33839

A large base made of Pierre de Sable, in the 19th-century style, this elegant stand is ideal for displaying your collections of spheres. Handcrafted and turned by our artisans, its natural patina – aged and weathered by time – gives it its authentic character. Some stones take several months to acquire the desired patina. It is worth noting that the magic of this stone lies in the transformation that takes place when the master craftsman sets about sculpting it: he must wet it to make it crumbly and pliable under his chisels. Once it dries, it becomes ‘hard as stone’ again! Origin: Asia

Period: New

Materials: Stone

Dimensions: Height 23 x diameter 25 cm

Caractéristiques

Dimensions	Ht 23 x diamètre 25 cm
Matériaux	Pierre
Origine	Asiatique
Époque	Neuf

Prix 280.00 TTC
