 Référence 33851

Ostrich egg mounted on legs

Which came first: the egg or the chicken? Science seems to have solved the mystery, but this curiosity, inspired by the Surrealist movement, seems to be posing the question to us all over again! To answer it, we have created this extraordinary creature, made from a real ostrich egg, which seems to be preparing for a burlesque dance à la 'Petit Rat de l'Opéra'! A humorous way of putting the dilemma into perspective. Golden

aluminium legs on a black marble plinthOrigin: Asian

Period: New

Materials: Marble

Dimensions: Height 28 x diameter 18 cm

Caractéristiques

Dimensions	Ht 28 x diamètre 18 cm
Material	Marbre
Origin	Asiatique
