Aluminium

"Dakota DC3" model aircraft. The legendary workhorse of the skies from the 1930s to the 1950s. Some still fly in remote regions such as the Amazon or the Gobi Desert. It took two years, but we've done it. The first limited edition of a handmade aluminium model. Featuring metal plates and rivets. Windows, highly detailed engines, propellers, landing gear and ailerons. Take a closer look... Admire it!
