

Produit Clock cane
Référence 2050A

The walking stick

as a status symbol Over the centuries, the walking stick—once merely a practical item—has evolved into an elegant accessory essential to the status of a gentleman worthy of the name. Its design, shape and material were indicators of his taste and status. Some canes concealed a long, slender blade within their shafts, ready for defence or a duel. Others concealed a flask or a compass. The most popular, without a doubt, concealed a watch within its knob. We have recreated this Victorian walking stick both for its decorative appeal and for the practicality of its watch.

Origin: Asian

Period: New

Materials: Brass

Dimensions: Height 88 x diameter 6.5 cm

Caractéristiques

Dimensions	Ht 88 x diamètre 6.5 cm
Matériaux	Laiton
Origine	Asiatique
Époque	Neuf

Prix 128.00 TTC
