"Secret d'Atelier"  
Linseed Oil Restorer 200 ml

A two-phase liquid formulation containing linseed oil and absolute ethanol; shake well before use.

Drying time:  
A few minutes after polishing

. Coverage:  
Approximately 5 m<sup>2</sup> depending on the surface, per 200 ml

#### bottle. BENEFITS

: Natural raw materials. Deeply cleans and nourishes woodwork and furniture in a single step. No sanding required. Preserves the existing patina whilst enhancing it. Enhanced protection after treatment. Authentic and natural finish. Does not leave a greasy residue; restores depth to the surface. Non-greasy feel.

#### APPLICATION

##### Method of use

: Shake well before use. Use a lint-free cotton cloth, then polish with a dry cloth without rubbing.

##### Recommendations

Carry out a test on an inconspicuous area first; we are unable to anticipate all possible scenarios regarding the interaction of certain products with one another. Do not apply the Renovator directly to the surface to be treated. Rinse the cloth with soap and water after use; linseed oil is a self-igniting substance.

##### Areas of use

: Furniture, objects and treated wooden surfaces, indoors and outdoors.

##### Tips and tricks

Moinat SA, Route de Genève 20, 1180 Rolle, Téléphone : +41 21 822 52 00, Email : info@moinat.ch  
: If water or sun marks have not completely disappeared, repeat the process by gently rubbing the marks with a #000# steel wool pad; always polish afterwards with a dry cloth, without rubbing. Always wipe off any excess immediately after application; do not allow it to dry on the surface. If, after treating with the Renovator, you feel that your furniture is not sufficiently nourished, or that the surface has areas that are more matt #chr(59)#, you can apply a thin layer of wood wax and polish it; this will even out the finish.  
Origin: Switzerland  
Age: New  
Materials: Wax

Dimensions: H 16 x 8 x 3 cm
